EUROPEEN DES FEMMES

▶▶ EWL's VISION

We believe in a Feminist Europe.

We want a holistic, transformational socio-economic vision, based on well-being, equality, social justice, and a powerful voice against women's poverty. We envision a culture in which women enjoy equal rights and participation in reimagined power and decision-making structures, in which all forms of violence against women has been eliminated, and women have been liberated from all forms of oppression. We envision a society in which women's contribution to all aspects of life is recognised, rewarded and celebrated - in leadership, in care and in production; all women have freedom of choice, self-confidence, and freedom from exploitation; and no woman has been left behind.

EWL STRATEGIC FRAMEWORK 2016-2020

▶▶ EWL's MISSION

We are a credible source of expertise and experience on equality between women and men, women's rights and equality between women and men, representing the diversity of the women's movement across the European Union. We represent an inclusive, confident, loud, independent feminist voice and bring real women's voices into the EU political arena. We build consensus and mobilise our members' collective experience to work on major issues affecting women, to realise women's rights, equality between women and men and social justice. We act as a catalyst connecting different actors and organisations to bring change at EU level.

▶▶ EWL's 5 KEY PRINCIPLES

Women's rights are
Human Rights
(non-negotiable and
indivisible)

Inclusion

Participation

▶▶ EWL's 6 CORE VALUES

▶▶ STRATEGIC AIMS (LONG TERM GOALS TO ACHIEVE OUR VISION)

Transforming society

1. To put an **end to all forms of violence against women and girls** and promote a society of peace, human security and dignity
 2. To challenge and change the culture of **sexism and stereotypes** and promote positive roles for women and men
 3. To promote the feminist transformation of a sustainable **economy** based on new economic models based on equality, well-being, care and social justice
 4. To position women at the heart of **political, social and economic participation and decision-making**
- + **Transversal aims:** international action for women's rights / support to & implementation of EU Strategy on equality between women and men
